

Applying two liquids at different rates?
 Applying materials that can't be mixed?
 Short on tractor hydraulic remotes?
 Tired of unreliable 12V pumps?

Then Ace's new Gemini™ Dual Pump Kit is for you! The Gemini™ kit is designed for dual liquid application on planters and sprayers. It uses one hydraulic supply to run two Ace pumps allowing operators to quickly and easily dial-in separate application rates.

Features:

- Operate two pumps independently
- Supply oil from one tractor remote or power beyond circuit
- Use on tractors with Load Sensing (LS) or Pressure Compensated (PC) hydraulic systems
- Two modes of operation:
 - Manual mode - independent on/off operation from cab with independent manual flow adjustment at the hydraulic manifold
 - PWM mode - independent pump regulation and on/off with PWM signal from controller
- Operates any combination of Ace Pumps listed below:

Benefits:

- Dual rate precision application
- Expands tractor's hydraulic connections
- Minimizes trips through the field reducing:
 - fuel costs
 - labor costs
 - compaction
 - equipment wear and tear

Pump Models	FMC-75-HYD-204 FMC-75-HYD-206	FMC-HYD-204 FMC-HYD-206	FMC-150-HYD-206	FMC-150F-HYD-206 FMC-150FS-HYD-206
Max. Flow	25 gpm (95 lpm)	85 gpm (320 lpm)	135 gpm (511 lpm)	145 gpm (549 lpm)
Max. Pressure	100 psi (6.9 bar)	100 psi (6.9 bar)	120 psi (8.3 bar)	120 psi (8.3 bar)

Includes:

- Switch Box Assembly - 15' cable
- Implement Wire Harness - 12' cable
- Hydraulic Manifold Assembly
- Hydraulic Return Tee
- Adapter for Load Sense (LS) Port
- Connectors with 8" Pig Tail
- Power Connection Kit with Fuse
